## ■ INTRODUCTION

The purpose of the American College of Healthcare Architects (ACHA) is to improve the quality of healthcare architecture by offering Board Certification in the specialized field of healthcare architecture.

The intent of the certification process is to provide representation to the public that a Board Certified healthcare architect has successfully completed an approved educational program and an evaluation of relevant experience, including an examination process designed to assess the knowledge and skills requisite to the performance of high-quality service in the practice of healthcare architecture. ACHA Board Certified healthcare architects will be required to pledge their commitment to continuing education and improving the quality of the architecture serving the healthcare field.

## ■ TESTING AGENCY

PSI Services is the professional testing agency contracted by ACHA to assist in the development, administration, scoring and analysis of ACHA examinations. PSI is a research and development firm that conducts professional competency assessment research and provides examination services for a number of health practitioner credentialing programs.

## ■ STATEMENT OF NONDISCRIMINATION

ACHA and PSI do not discriminate among candidates on the basis of age, gender, race, color, religion, national origin, disability or marital status or any other legally protected characteristic.

## ■ APPLYING FOR AN EXAMINATION

Applicants must complete the application included in this handbook and submit the requested information and fees online (see pages 12-17). Successful completion of the ACHA Examination is a requirement for all new ACHA Certificate candidates. After your completed application, portfolio, letters of reference and fees have been submitted and approved, you will receive written notice that you are eligible to take the ACHA Examination.

**The period of eligibility is five years.**

## ■ SCHEDULING AN EXAMINATION APPOINTMENT

After you have applied for the examination with ACHA and received notification of your eligibility, you may schedule an examination appointment with PSI by one of the following methods. Be prepared to confirm a date and location for testing and to provide your assigned unique identification number.

1. **Online Scheduling:** Visit [www.goAMP.com](http://www.goAMP.com) and select "Candidates" to schedule an examination appointment.

OR

2. **Telephone Scheduling:** Call PSI at 1-888-519-9901 to schedule an examination appointment.

The ACHA Examination will be available during the month of July each year. For a detailed schedule, visit [www.healtharchitects.org](http://www.healtharchitects.org) or [www.goAMP.com](http://www.goAMP.com). The examinations are administered by appointment only Monday through Saturday. Appointment starting times may vary by location. Individuals are scheduled on a first-come, first-served basis. Refer to the chart below.

If you contact PSI by 3:00 p.m. Central Time on...	Your examination may be scheduled beginning...
Monday	Wednesday
Tuesday	Thursday
Wednesday	Friday (Saturday if open)
Thursday	Monday
Friday	Tuesday

After the appointment is made, you will be given a time to report to the Test Center. Please make a note of it since an admission letter will not be sent. You will only be allowed to take the examination for which the appointment has been made. No changes in examination type will be made at the Test Center. UNSCHEDULED CANDIDATES (WALK-INS) WILL NOT BE ADMITTED to the Test Center.

## ■ SPECIAL ARRANGEMENTS FOR CANDIDATES WITH DISABILITIES

ACHA and PSI comply with the Americans with Disabilities Act and strive to ensure that no individual with a disability is deprived of the opportunity to take the examination solely by reason of that disability. PSI will provide reasonable accommodations for candidates with disabilities.

Wheelchair access is available at all established Test Centers. Candidates with visual, sensory or physical disabilities that would prevent them from taking the examination under standard conditions may request special accommodations and arrangements. To request special accommodations, complete the two-page REQUEST FOR SPECIAL EXAMINATION ACCOMMODATIONS form included in this handbook then submit it to PSI at least forty-five (45) business days prior to your desired testing date. Please inform PSI of your need for special accommodations when scheduling your examination.

## ■ TEST CENTER LOCATIONS

Examinations are administered by computer at approximately 300 PSI Test Centers geographically distributed throughout the United States, Canada and Australia. Test Center locations, detailed maps and directions are available on [www.goAMP.com](http://www.goAMP.com). Specific address information will be provided when you schedule an examination appointment.

## ■ EXAMINATION APPOINTMENT CHANGES

1. You may reschedule the examination once at no charge by calling PSI at 888-519-9901 at least two business days prior to a scheduled administration. For a computer administration at a PSI Test Center, the following schedule applies:

If your examination is scheduled on...	You must call PSI by 3:00 p.m. Central Time to change your reservation by the previous...
Monday	Wednesday
Tuesday	Thursday
Wednesday	Friday
Thursday	Monday
Friday/Saturday	Tuesday

2. If you choose to reschedule an examination more than once within your eligibility window, you may reschedule by submitting the Reschedule Form to ACHA with the \$100 rescheduling fee. A new application is not required.
3. If you do not reschedule an examination within the assigned eligibility window, you forfeit the application and all fees paid to take the examination. A new, complete application and examination fee are required to reapply for examination.

## ■ PREPARING FOR THE EXAMINATION

The study and test-taking advice described here may be helpful as you prepare for the examination. Try to be objective about your individual learning needs when deciding how best to study. Plan your study schedule well in advance.

The examination will be timed and the computer will indicate the time remaining on the screen. If you find it distracting, the time feature may be turned off during the examination. If you choose to turn off the time feature, you should pace yourself by periodically checking your progress. This will allow you to make any necessary adjustments. Remember, the more questions you answer, the better your chances of achieving a passing score. The time limit is intended to allow you to complete the entire examination by working quickly and efficiently.

Be sure to answer each question, even the ones for which you are uncertain. Avoid leaving any questions unanswered; this will maximize your chances of passing. It is better to guess than to leave a question unanswered; there is no penalty for guessing.

## ■ EXAMINATION CONTENT

The ACHA Examination was developed to objectively measure the knowledge and skills required of healthcare architects and to foster uniform standards for measuring such knowledge and skills. The examination is based on a content outline developed from a national survey of healthcare architects which identified tasks significant to practice. Examination questions were written by committee members and other practitioners to assess the knowledge and skills required to perform the identified tasks. The objective examination consists of 120 multiple-choice questions (100 scored and 20 nonscored pretest questions).

Pretesting questions allows examination committees to collect meaningful statistics about new questions that may appear as scored questions on future examinations. These questions are not scored as part of the individual's pass/fail status. The pretest questions are scattered throughout the examination so candidates will answer them with the same care they would questions to be scored as part of the national examination. With pretesting methodology, candidates are ensured their scores are the result of sound measurement practices and that scored questions are reflective of current practice.

Candidates are presented with a question and are asked to choose the correct answer from four options. The summary content outline that follows was developed from the current ACHA job analysis. The number of questions on the examination from each content area is provided with each major content heading.

# ■ ACHA DETAILED CONTENT OUTLINE

## I. FORCES THAT DRIVE THE BUSINESS OF HEALTHCARE

*Demonstrate an understanding of the following topics as factors influencing the development of healthcare projects.*

### Total 15 questions

- A. Economics
  - 1. Funding sources
  - 2. Market forces:
    - a. demographics
    - b. competition
  - 3. Payors / Payor mix
- B. Regulation / Reimbursement
  - 1. Affordable Care Act
  - 2. Centers for Medicare and Medicaid Services
  - 3. Other government agencies
  - 4. The Joint Commission
- C. Healthcare Models / Technology
  - 1. Information and diagnostic technology
  - 2. Care models
  - 3. Staffing type and availability
  - 4. Population health

## II. PRE-DESIGN

### Total 35 questions

#### A. Programming

*Context Awareness and Analysis*

- 1. Confirm and help validate strategic and operational plans
- 2. Establish clear goals and objectives
- 3. Determine constraints
  - a. regulatory
  - b. budgetary
  - c. schedule and/or phasing
- 4. Identify the review and approval process and participants
- 5. Develop scenario plans
- 6. Develop an understanding of an organization's current healthcare procedures and processes

*Workload Analysis*

- 7. Develop an understanding of staffing patterns in different healthcare environments
- 8. Identify the variables that affect room and equipment utilization
- 9. Recognize industry norms and specific factors influencing utilization
- 10. Compare existing conditions and capacity to projected needs (e.g., functionality, adequacy of space, adjacencies)
- 11. Compare existing conditions to norms and best practices (benchmarking)

*Facilities Programming*

- 12. Identify the factors that influence key room quantities
- 13. Develop list of spaces required to support key rooms

- 14. Identify differences between net-to-departmental grossing factors and departmental-to-building grossing factors by facility type
- 15. Develop functional description
- 16. Establish diagrammatic functional relationships
- 17. Establish medical technology systems and strategies
- 18. Establish major equipment relationships
- 19. Identify viable building support and infrastructure systems
- 20. Estimate building support and infrastructure space requirements
- 21. Identify project cost components

#### B. Site and Facilities Master Planning

- 1. Evaluate access and accessibility of site (e.g., parking, entrances, etc.)
- 2. Establish internal and external circulation patterns
- 3. Establish functional adjacencies and synergies
- 4. Determine implementation/phasing strategy
- 5. Match building occupancy type with functional needs
- 6. Develop and assess alternative solutions relative to current and future objectives
- 7. Establish infrastructure strategies
- 8. Collect or create documentation of existing site and building conditions
- 9. Assess existing conditions for obsolescence/current code compliance
- 10. Establish interdepartmental relationships and vertical/horizontal adjacencies
  - stacking diagrams
  - block planning diagrams
- 11. Plan circulation, structural, and infrastructure concepts
- 12. Plan building flexibility and expansion options

## III. DESIGN

### Total 35 questions

#### A. Facilities Design

- 1. Confirm relevance of the program and planning documents to current factors affecting healthcare delivery
- 2. Conduct building and health facilities code research
- 3. Synthesize and integrate the design and planning of
  - functional arrangements
  - building massing and envelope
  - site and context (e.g., access points, parking, topography)
  - medical equipment and technologies
- 4. Research/study major building materials and systems options
- 5. Coordinate architectural design with specialized building systems design

6. Assess and prioritize design and planning options
  7. Provide conceptual estimates at design development phase
  8. Advise client on strategies to avoid facility obsolescence
- B. Departmental Design
1. Align design with patient and staff
    - a. flow
    - b. experience
    - c. safety
  2. Confirm intradepartmental space requirements and adjacencies
  3. Confirm departmental constraints and opportunities
  4. Design intradepartmental circulation, structure, and infrastructure concepts
  5. Design flexibility and expansion options
  6. Prepare departmental plans to include
    - process improvement strategies
    - the size and arrangement of all department spaces
    - horizontal/vertical intradepartmental circulation
    - horizontal/vertical intradepartmental materials movement
  7. Coordinate architectural design with building systems design
  8. Assess and prioritize design and planning options
- C. Detailed Design
1. Develop room data to align with
    - a. patient and staff safety
    - b. patient and staff experience
    - c. patient and staff privacy
    - d. environment (e.g., sound, lighting)
    - e. finish selections (durable, sustainable)
    - f. technical and operational requirements
    - g. maintenance requirements
  2. Coordinate and evaluate the use of mock-ups and simulations for testing key patient care and treatment spaces
  3. Coordinate equipment layouts, requirements, and manufacturer specifications

#### IV. DELIVERY & IMPLEMENTATION

##### Total 15 questions

- A. Contracts
1. Interpret language specific to healthcare facility requirements of contracts
- B. Construction documents
1. Prepare code analysis to verify compliance with local, state, and federal requirements
  2. Prepare Life Safety plans and narrative
  3. Review project with appropriate Authorities Having Jurisdiction
  4. Prepare documents defining required phasing and associated healthcare implications
    - a. for infection control
    - b. constructability / interim life safety
    - c. operational disruption
    - d. transition planning / operational startup
  5. Ascertain specific owner input on unique facility requirements for construction and selection of medical equipment and technologies
  6. Assist owner with variances and waivers required by Authorities Having Jurisdiction
- C. Review owner-provided fixed medical equipment and technologies submittals for coordination with contract documents
- D. Assist the owner with final processes for obtaining approval, licensing, or certificate of occupancy
- E. Evaluate results of post-occupancy evaluation and research findings

##### TOTALS 100 questions

Every item will be linked to a specific healthcare setting:

General  
 Acute Care  
 Post-Acute Care  
 Outpatient Care  
 Behavioral and Mental Health Care

## ■ SAMPLE QUESTIONS

1. Which of the following terms describes a concept that emphasizes the comprehensive management of patient care of a specific disease type?
  - A. vertically integrated patient care
  - B. co-operative care
  - C. point of care
  - D. patient focused care
2. Which of the following design criteria is **LEAST** important in planning a pediatric critical care unit?
  - A. visibility of the patient
  - B. ability to accommodate patient families
  - C. access to patient toilets
  - D. ability to accommodate crisis interventions
3. Which of the following analytical approaches could be used in the evaluation of building options?
  1. net present value analysis
  2. initial construction cost analysis
  3. goodness of fit analysis
  4. operational cost impact
  - A. 1, 2, and 3 only
  - B. 1, 2, and 4 only
  - C. 1, 3, and 4 only
  - D. 2, 3, and 4 only

### Answer Key:

1. A
2. C
3. B

## ■ ON THE DAY OF YOUR EXAMINATION

On the day of your examination appointment, report to the Test Center no later than your scheduled testing time. Once you enter the Test Center, look for the signs indicating PSI Test Center Check-In. **IF YOU ARRIVE MORE THAN 15 MINUTES AFTER THE SCHEDULED TESTING TIME, YOU WILL NOT BE ADMITTED.**

To gain admission to the Test Center, you must present two forms of identification. The primary form must be government issued, current and include your name, signature and photograph. No form of temporary identification will be accepted. You will also be required to sign a roster for verification of identity.

- Examples of valid primary forms of identification are: driver's license with photograph; state identification card with photograph; passport; military identification card with photograph.
- The secondary form of identification must display your name and signature for signature verification (e.g., credit card with signature, social security card with signature, employment/student ID card with signature).
- If your name on your registration is different than it appears on your identification, you must bring proof of your name change (e.g., marriage license, divorce decree or court order).

Candidates must have proper identification to gain admission to the Test Center. Failure to provide appropriate identification at the time of the examination is considered a missed appointment. There will be no refund of examination fees.

## ■ INCLEMENT WEATHER OR EMERGENCY

In the event of inclement weather or unforeseen emergencies on the day of an examination, PSI will determine whether circumstances warrant the cancellation, and subsequent rescheduling, of an examination. The examination will usually not be rescheduled if the Test Center personnel are able to open the Test Center.

You may visit [www.goAMP.com](http://www.goAMP.com) prior to the examination to determine if PSI has been advised that any Test Centers are closed. Every attempt is made to administer the examination as scheduled; however, should an examination be canceled at a Test Center, all scheduled candidates will receive notification following the examination regarding rescheduling or reapplication procedures.

If power to a Test Center is temporarily interrupted during an administration, your examination will be restarted. The responses provided up to the point of interruption will be intact, but for security reasons the questions will be scrambled.

## ■ SECURITY

PSI administration and security standards are designed to ensure all candidates are provided the same opportunity to demonstrate their abilities. The Test Center is continuously monitored by audio and video surveillance equipment for security purposes.

The following security procedures apply during the examination:

- Examinations are proprietary. No cameras, notes, tape recorders, pagers or cellular/smart phones are allowed in the testing room. Possession of a cellular/smart phone or other electronic devices is strictly prohibited and will result in dismissal from the examination.
- Only silent, non-programmable calculators without alphabetic keypads or printing capabilities are allowed in the testing room.
- No guests, visitors or family members are allowed in the testing room or reception areas.

## ■ PERSONAL BELONGINGS

No personal items, valuables, or weapons should be brought to the Test Center. Only wallets and keys are permitted. Coats must be left outside the testing room. You will be provided a soft locker to store your wallet and/or keys with you in the testing room. The proctor will lock the soft locker prior to you entering the testing room. You will not have access to these items until after the examination is completed. Please note the following items will not be allowed in the testing room except securely locked in the soft locker.

- watches
- hats
- wallets
- keys

Once you have placed everything into the soft locker, you will be asked to pull out your pockets to ensure they are empty. If all personal items will not fit in the soft locker you will not be able to test. The site will not store any personal belongings.

If any personal items are observed or heard (e.g., cellular/smart phone, alarm) in the testing room after the examination is started, the administration will be forfeited.

## ■ EXAMINATION RESTRICTIONS

- Pencils will be provided during check-in.
- You will be provided with one piece of scratch paper at a time to use during the examination, unless noted on the sign-in roster for a particular candidate. You must return the scratch paper to the supervisor at the completion of testing, or you will not receive your score report.

- No documents or notes of any kind may be removed from the Test Center.
- No questions concerning the content of the examination may be asked during the examination.
- Eating, drinking or smoking will not be permitted in the Test Center.
- You may take a break whenever you wish, but you will not be allowed additional time to make up for time lost during breaks.

## ■ MISCONDUCT

If you engage in any of the following conduct during the examination you may be dismissed, your scores will not be reported and examination fees will not be refunded. Examples of misconduct are when you:

- create a disturbance, are abusive, or otherwise uncooperative;
- display and/or use electronic communications equipment such as pagers, cellular/smart phones;
- talk or participate in conversation with other examination candidates;
- give or receive help or are suspected of doing so;
- leave the Test Center during the administration;
- attempt to record examination questions or make notes;
- attempt to take the examination for someone else;
- are observed with personal belongings, or
- are observed with notes, books or other aids without it being noted on the roster.

## ■ COMPUTER LOGIN

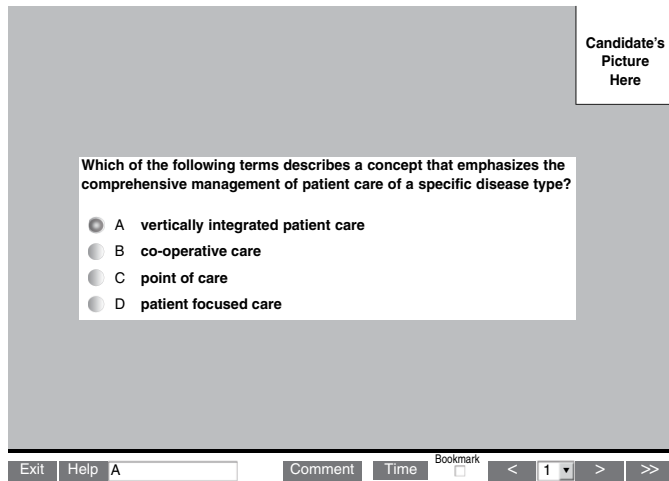

After your identity has been confirmed, you will be directed to a testing carrel. You will be instructed on-screen to enter your assigned identification number. Your photograph, taken before beginning the examination, will remain on-screen throughout your testing session. This photograph will also print on your score report.

## ■ PRACTICE EXAMINATION

Prior to attempting the timed examination, you will be given the opportunity to practice taking an examination on computer. The time you use for this practice examination is NOT counted as part of your examination time. When you are comfortable with the computer testing process, you may quit the practice session and begin the timed examination.

## TIMED EXAMINATION

Following the practice examination, you will begin the actual examination. Instructions for taking the examination are accessible on-screen once you begin the examination. The examination contains 120 questions (100 scored and 20 nonscored pretest questions). Two and a half hours are allotted to complete the examination. The following is a sample of what the computer screen will look like when you are attempting the examination.

The computer monitors the time you spend on the examination. The examination will terminate if you exceed the time limit. You may click on the "Time" button in the lower right portion of the screen to monitor your time. A digital clock indicates the time remaining for you to complete the examination. The time feature may also be turned off during the examination.

Only one question is presented at a time. The question number appears in the lower right portion of the screen. The entire question appears on-screen (i.e., stem and four options labeled – A, B, C and D). **Indicate your choice by either entering the letter of the option you think is correct (A, B, C or D) or clicking on the option using the mouse.** Your answer appears in the window in the lower left portion of the screen. To change your answer, enter a different option by typing A, B, C or D or by clicking on the option using the mouse. You may change your answer as many times as you wish during the examination time limit.

To move to the next question, click on the forward arrow (>) in the lower right portion of the screen. This action will move you forward through the examination question by question. If you wish to review any question or questions, click the backward arrow (<) or use the left arrow key to move backward through the examination.

You may leave a question unanswered and return to it later. You may also bookmark questions for later review by clicking in the blank square to the right of the Time button. Clicking on the double arrows (>>) advances to the next unanswered or bookmarked question on the examination. To identify all unanswered and bookmarked questions, repeatedly click on the double arrows (>>).

When you have completed the examination, the number of questions you answered is reported. If you have not answered all questions and you have time remaining, return to the examination and answer those questions. Be sure to answer each question before ending the examination. **There is no penalty for guessing.**

You may provide comments for any question by clicking on the Comment button to the left of the Time button. This opens a dialogue box where you may enter your comments.

The examination will be timed; you will have two and a half (2.5) hours of actual examination time. The computer will indicate the time remaining on the screen. If you find it distracting, the time feature may be turned off during the examination. The time limit is intended to allow you to complete the entire examination by working quickly and efficiently.

## FAILING TO REPORT FOR AN EXAMINATION

If you fail to report for an examination, you may reschedule by submitting the Reschedule Form to ACHA with the \$100 rescheduling fee. A new application is not required. If you do not reschedule within the assigned eligibility window, you forfeit the application and all fees paid to take the examination. A new, complete application and examination fee are required to reapply for the examination.

## FOLLOWING THE EXAMINATION

After you finish the examination, you are asked to complete a short evaluation of your testing experience. Then, you are instructed to report to the examination proctor to receive your completion report. Scores are reported in printed form only by U.S. mail. Scores are **NOT** reported over the telephone, by electronic mail or by facsimile. The examinational items and resulting statistics will be reviewed to ensure that examination scores are accurate. Scores are expected to be mailed to candidates within 30 days after the end of the testing period.

Your score report will indicate a "pass" or "fail." Additional detail is provided in the form of raw scores by major content category. A raw score is the number of questions you answered correctly. Your pass/fail status is determined by your raw score. Even though the examination consists of 120 questions, your score is based on 100 questions. Twenty (20) questions are "pretest" questions.

The methodology used to set the minimum passing score is the Angoff Method, in which expert judges estimate the passing probability of each question on the examination. These ratings are averaged to determine the minimum passing score (i.e., the number of correctly answered questions required to pass the examination).

## ■ IF YOU PASS THE EXAMINATION

If you pass the ACHA Examination, you will receive an ACHA Board Certificate, and you are allowed to use the credential ACHA Board Certified healthcare architect.

ACHA Board Certified healthcare architects will be required to pledge their commitment to continuing education and improving the quality of the architecture serving the healthcare field.

## ■ IF YOU DO NOT PASS THE EXAMINATION

You may retake this examination again within your assigned eligibility window. Each re-examination appointment within your assigned eligibility window requires submitting the bottom portion of your latest score report or the Re-Examination Application Form with an additional examination fee of \$100, paid to ACHA. If you wish to retake the examination outside of your assigned eligibility window, you must contact the ACHA Executive Office to renew your eligibility.

## ■ SCORES CANCELED BY THE ACHA OR PSI

ACHA and PSI are responsible for the integrity of the scores they report. On occasion, occurrences, such as computer malfunction or misconduct by a candidate, may cause a score to be suspect. ACHA and PSI are committed to rectifying such discrepancies as expeditiously as possible. ACHA may void examination results if, upon investigation, violation of its regulations is discovered.

## ■ DUPLICATE SCORE REPORT

You may purchase additional copies of your score report at a cost of \$25 per copy. Requests must be submitted to PSI, in writing, within 12 months after the examination. The request must include your name, assigned identification number, mailing address, telephone number, date of examination and examination taken. Submit the form on page 21 with the required fee payable to PSI Services Inc. Duplicate score reports will be mailed within approximately five business days after receipt of the request.

## ■ HOW TO CONTACT ACHA

American College of Healthcare Architects (ACHA)  
4400 College Boulevard, Suite 220  
Overland Park, Kansas 66211

# AMERICAN COLLEGE OF HEALTHCARE ARCHITECTS

## EXAMINATION APPLICATION

### GENERAL INSTRUCTIONS:

Applicants are expected to satisfy *all* requirements identified on the eligibility requirements. The ACHA certification committee will review the application, references, and portfolio. If approved to sit for the examination, an email/letter will be sent to the examination candidate within 60 days with examination scheduling instructions. All materials must be submitted online by February 1 (early bird deadline) or April 1 to be reviewed and approved for the July examination.

### Fees:

\$400 fee payable to the American College of Healthcare Architects. An additional \$50.00 will be assessed for insufficient funds. *The fee includes:*

- \$150 Application Fee: Non-refundable, necessary for examination application.
- \$250 Examination Fee: (If an application is not deemed complete and cannot be accepted, or is withdrawn, the \$250 examination fee will be refunded).

### Continuing Education:

Each candidate who successfully passes the examination will be awarded 20 CEUs through the American Institute of Architects (AIA) which will satisfy the continuing education for the subsequent year. Please note your AIA number on your application if you are a member.

### Submission Requirements:

The application process is all online at [www.healtharchitects.org](http://www.healtharchitects.org) effective January 2018. Please be prepared to supply the information contained in the checklist and attached application.

### ACHA Examination Application Checklist

The following must be received for the application to be considered complete.  
Incomplete applications will be returned minus a \$50 processing fee.

- Completed Application Form and attachments.
- AIA Number, if applicable
- Acceptable evidence of current registration as an architect in at least one jurisdiction of the United States of America and/or its territories, or a province of Canada or Australia.
- Three (3) Letters of Recommendation from licensed Architects who are not within your own firm.
- Three (3) Letters of Reference, from different current healthcare clients identifying the project(s) on which you are currently providing, or have previously provided professional architectural services.
- Project Portfolio: Required descriptions of projects from the past five years. These must be signed by another architect or client. More details on portfolio requirements found on page 13.
- Fees in the amount of \$400 which includes payment for the application and examination fee.

# PORTFOLIO

## PORTFOLIO REQUIREMENTS:

A complete Application and Portfolio **must** include the following items:

- 1) A PDF of the application completed and signed by the applicant. All portions of the application must be completely filled out. Hand-written applications will not be accepted.
- 2) The application and portfolio pages saved in **one Adobe .pdf file**. All sections of application and portfolio materials shall be vertically (portrait) oriented.
- 3) The applicant consent form completed and signed by the applicant.
- 4) Demonstration of licensure as an architect in at least one jurisdiction of the United States, its territories, Canada, or Australia for no fewer than three years. *A photocopy of the applicant's original license or licensing certificate is acceptable documentation.*
- 5) Demonstration of practice as a licensed architect with no fewer than 6,000 hours total healthcare practice/experience within the last five years.
- 6) Three (3) letters of recommendation from architects who know your work personally and who are not in the firm where you are currently employed. *Reference letters must contain specific language that indicates that the referring architect believes the applicant to be qualified for ACHA Board Certification.*
- 7) Three (3) letters of reference from clients must contain specific language that indicates the applicant's specific role on the projects submitted with the portfolio. If a client is an ACHA certificant, the individual cannot also serve as an architect recommendation. Where possible, client reference letters should come from three different clients/institutions, even if all three are contained within same hospital system, for example.
- 8) At least (3) but not more than (9) projects from the past five years. A signature from another architect or client is required on each project's narrative to confirm your role and responsibility.
  - Portfolios shall contain a narrative statement of no more than one page per project describing each project, summarizing the program, emphasizing the role and responsibility of the applicant on that project. Narrative must include detailed account of applicant's contribution to each project's effort. Project description should include both problem and solution for each project as well as applicant's role in project's solution. Generic firm marketing materials should not be submitted.
  - The one page narrative data should also include associated facts with each project, to include square footage, construction cost, completion dates, the name of the owner, all consultants, the contractor and other pertinent facts.
  - Portfolios shall include floor plans and other drawings to explain the project, and photographs or quality color copies of photos of the interior and exterior (except for renovations that do not impact the exterior). *The drawings and photos should not exceed three pages for any one project.* Candidates should include projects and presentation-quality project documentation that provides sufficient detail for reviewers to come to an understanding about the range and depth of the candidate's knowledge and experience as well as an appreciation of the candidate's ability to apply that experience and knowledge in the problem-solving and design process. Portfolio should be vertically (portrait) oriented and include legible, easy to read graphics.
- 9) An applicant may use a single B'Arch or M'Arch project from a NAAB accredited program for inclusion as one of the three minimum projects in the portfolio. The project shall follow the same requirements as professional projects by providing a narrative statement, project facts, applicant's role and appropriate graphics illustrating the narrative.

PREVIOUS PRACTICE SUCH AS PUBLIC INSTITUTION OR GOVERNMENT ORGANIZATION AND/OR NON-TRADITIONAL PRACTICE HISTORY NARRATIVE (OPTIONAL): ACHA wishes to encourage applications from the full range of architects with widely differing roles in the healthcare field. Some applicants may practice in non-traditional roles or may have been focused on a limited number of projects, project types or specialized practice roles over the past five years. In order to provide a better understanding of your healthcare architecture experience, attach a one page 8.5"x11" narrative summary of other healthcare experience from date of initial registration to present.

**EXPERIENCE**

**Employment Experience**

*(List experience chronologically, beginning with the most recent. Attach additional sheets as necessary.)*

Firm Name	Dates of Employment

**Experience in Healthcare:**

*(Demonstration of practice as a licensed architect of not less than a minimum 6,000 hours total healthcare practice/ experience, within the last five years.)*

Year	Estimated Number of Relative Annual Hours in the practice of Healthcare Architecture: indicate hours per year and five year total (based upon 2,080 available hours/year)		
		<b>Total</b>	

**Years of Healthcare Architecture Experience:**

How many years have you been practicing Healthcare Architecture? \_\_\_\_\_

**Project Experience:**

*(Provide a complete, chronological listing of all health facility projects over the past 5 years beginning with the most recent first. This listing should coincide with the portfolio submission per eligibility requirements. Attach additional sheets as necessary.)*

Project Name/Location	Describe your Role	Phone Number and Position of Project Contact	Date of Project Completion	Total Cost – Construction (C) and Project (P)
<i>Example:</i> XYZ Hospital City, State	planner	555-555-5555 Jane Doe Facilities Director	12/2007	\$15 million C \$22 million P

## APPLICANT CONSENT

**After reading the following statement in its entirety, affix your signature and the date in the spaces provided.**

I, the undersigned, in connection with my application for certification by the American College of Healthcare Architects, hereby authorize the American College of Healthcare Architects, now and in the future, to request, procure, and review any information regarding my professional practice, moral standing and character, including any information related to any disciplinary action related to the practice of architecture by any state licensing board in which I have practiced architecture.

I hereby authorize the American College of Healthcare Architects, now and in the future, to request and procure such information from any individual or institution, each of which shall be absolutely immune from civil liability arising from any act, communication, report, recommendation or disclosure of any such information even where the information involved would otherwise be deemed privileged so long as any such act, communication, report, recommendation or disclosure is performed or made in good faith and without malice.

I hereby authorize the American College of Healthcare Architects to supply a copy of this consent, which has been executed by me, to any individual or institution from which it requests information relating to me.
