### **ACHA Board Certified Architects Advance to Fellows**

Overland Park, Kansas - The American College of Healthcare Architects (ACHA) has announced that William C. Ayars, AIA, FACHA, and Abigail Clary, AIA, FACHA have recently been elevated to Fellow status in the College.

The Council of Fellows was founded to advance the unique qualities of the profession of healthcare architecture by demonstrating and celebrating achievements of national significance. Fellowship is one of the highest honors bestowed upon a certificant of The American College of Healthcare Architects, who has shown distinction in fulfilling one specific Category of Nomination of their work and has demonstrated a nominee's individual impact in healthcare facility architecture.

While there are nearly 400 colleagues in the United States and Canada who are ACHA board certified healthcare architects, there are only 49 ACHA Fellows as designated by the credential FACHA.

The mission of the American College of Healthcare Architects is to distinguish healthcare architects through certification, experience, and rigorous standards. For more information, please visit [www.healtharchitects.org](http://www.healtharchitects.org).
